The Woman's Friend!
Another lot of those celebrated
STEAM WASHERS
Which rival all kinds of Washing Machines
has arrived. Men who wish to make capital
out of their washing machines should not fail
to avail themselves of the present opportunity
of taking one home. No wash-board, no hard
rubbing, does not wear out clothes; washes
with steam, and no labor whatever. It can be
broken down, and by the time you get the
dishes washed your washing is completed.
I will not say it is not a good thing, but I
will say it is a very good thing, and a very
valuable one.

Give me a fair trial, according to instructions
before you make a decision, and if you find
you are determined not to be satisfied, return
it and get your money back. I can give you
testimonials, but as my Washer sells entirely
on its merits, I can give you no testimonials.
For curtains and flannels, fine face collars, etc., this
would be a cheap Washer if it would do more.
I will not say it is not a good thing, but I
will say it is a very good thing, and a very
valuable one.

The Grange—Their Recently Adopted Platform.

At the recent session in St. Louis, of the National Grange of Husbandry, the following declaration of principles and objects were adopted:

"We are profoundly impressed with the truth that the National Grange of the United States should definitely proclaim to the world its general objects, and hereby unanimously make this Declaration of Principles and Objects:

GENERAL OBJECTS.
United by the strong and faithful tie of agriculture; we mutually resolve to labor for the good of our Order, our country and mankind.

We heartily endorse the motto, "In each man's duty, in non-contentious liberty, in all things, charity."

SPECIFIC OBJECTS.
We shall endeavor to advance our cause by laboring to accomplish the following objects:

First, to secure a higher and higher manhood, and a higher standard of living, to enhance the comforts and attractions of our homes, and strengthen our attachments to our pursuits. To foster the selling together, and in general, to maintain inviolate our laws, and emulate each other in labor, to hasten the good time coming. To reduce our expenses, both individual and corporate. To do less and better.

In order to make our farms self-sustaining. To diversify our crops, and crop no more than we can cultivate. To condense the weight of our export duties, and to secure a better price for our products. To systematize our work and calculate intelligently on probabilities. To discountenance the credit system, the mortgage system, the system of buying on credit, and the system tending to prodigality and bankruptcy.

We propose meeting together, talking together, working together, buying together, and in general, to act together for our mutual protection and advancement as an occasion may require. We shall avoid litigation as much as possible. We shall constantly strive to secure entire harmony, good will, and brotherhood among our members, and to make our Order practically self-sustaining.

We shall endeavor to suppress personal, local, sectional and national prejudices, all unhealthy rivalry, all selfish ambition. Faithful adherence to these principles will insure the growth of our Order, and material advancement.

BUSINESS RELATIONS.
For our business interests we desire to bring producers and consumers, farmers and manufacturers into the closest relations possible. We shall not dispense with a surplus of middle men; but that we are unfriendly to them, but we do not need them. Their surplus and their exactions diminish our profits. We wage no aggressive warfare against any other interest whatever. On the contrary, all our acts and all our efforts, so far as business is concerned, are for the benefit of the producer and consumer, but also for all other interests, that tend to bring these parties into speedy and economical contact. Hence we are friendly to the business of every kind are necessary to our success; that their interests are intimately connected with our interests, and harmonious action is mutually advantageous.

We shall, therefore, endeavor to have the interest of every practicable way, of all facilities for transporting cheaply to the sea-board, or between home-producers and consumers, all the practical relations possible. Hence we are fixed purpose to open out the channels in nature's great arteries, that the life-blood of commerce may flow freely. We are not enemies of the money market, or of the money power, or of any corporation that will advance our industrial interests, nor of any laboring classes. In our noble Order there is no communism, no antagonism, no hostility, no enmity, no spirit and management of any corporation or enterprise as tends to oppress the people and rob them of their property. We are opposed to the rule of capital, but we oppose the tyranny of monopolies. We long to see the antagonism between capital and labor removed by common consent, and by an equitable and just division of the nineteenth century. We are opposed to excessive salaries, high rates of interest and exorbitant per cent. We are greatly interested in the welfare of the laborer, and do not believe in a proper proportion to the profits of producers. We desire only self-protection and the protection of every true interest of our members, and do not believe in a proper proportion to the profits of producers.

EDUCATION.
We shall advance the cause of education among ourselves and for our children by all just means within our power. We respect the rights of our agricultural and industrial colleges that teach practical agriculture, domestic science, and all the arts which adorn the home, be taught in their courses of study.

THE GRANGE NOT PARTISAN.
We emphatically and sincerely assert the oft-repeated truth taught in our organic law that the Grange, National, State or Subordinate, is not a political party organization. The Grange, if true to its obligations, can discuss political or religious questions, nor call political conventions, nor nominate candidates, nor elect officers, nor do so in its meetings. Yet the principles we teach underlie all true politics, all true statesmanship, and if properly carried out, will tend to purify the whole political atmosphere of our country. For we seek the greatest good for the greatest number. We must always bear in mind that no one by becoming a member of the Grange, gives up his inalienable rights and duties which belong to every American citizen, to take a proper interest in the politics of his country. On the contrary, it is his duty to elect to office those who will power legitimately to influence for good the action of any political party to which he belongs. THE OFFICE SHOULD SEEK THE MAN

and not the man the office. We acknowledge the broad principle that difference of opinion is no crime, and hold that progress toward truth is made by differences of opinion, while the fault lies in bitterness of controversy.

We desire a proper equality, equity and fairness; protection for the weak, restraint upon the strong; in short, justly distributed power. These are American ideas, the very essence of American independence, and to advocate the contrary is unworthy of the sons and daughters of an American Republic.

We cherish the belief that sectionalism is, and of right should be dead and buried with the past. Our work is for the people, and our purposes we shall recognize no North, no South, no East, no West. It is reserved to every citizen as the right of a freeman to affiliate with any party that will best carry out his principles.

LIVE STOCK JOURNAL.—We have received from the publishers a copy of this excellent monthly, published at Buffalo, N. Y., at the low price of \$1.50 a year. This is a first-rate publication for all engaged in raising and keeping live stock of any kind, and so cheap that it is within the reach of all. Specimen copies 10 cts.

FASTEST THIRD HEAT.—At Buffalo, August 11th, in the 2:24 race at the Driving Park, for a purse of \$4,500, divided among four horses, Lulu won in three straight heats; Derby, second, 2:21-2:24-2:16. This is the fastest third heat ever trotted in a race.

THE NEW EDUCATION.—We have received from the author a pamphlet of 44 pages under the above title, which treats of the management of our State University, shows the objects for which the University was established, and how poorly at least a part of the objects are carried out at that institution, particularly the advancement of Agriculture and the Mechanic Arts. We must defer making extracts till our next issue.

THE POLITICIANS AT LOUGHEEDS.—In Illinois certain unauthorized men called a Democratic State Convention, and now the regularly constituted committee comes forward and issues a call for a straight Democratic State Convention to be held at Springfield, Aug. 25th. In Florida, on the 11th, the Regular Republican Convention was prevented from assembling by the Bolters, who occupied the Capitol building and barred the doors.

NINTH EXHIBITION.—The ninth Industrial Fair of the Mechanics' Institute will open in San Francisco on Tuesday next, August 18th. We acknowledge the receipt of a complimentary invitation to be present. There will be a brilliant and interesting display of the various industries of the Pacific Coast—the arts and sciences, mechanics, agriculture, horticulture, mining, etc. Doubtless the attendance will be very great, as everything that can be done to make it attractive will be. We hope to attend.

ELECTIONS TO COME.—Elections are to take place as follows: In Ohio, August 18th, to vote on the new State Constitution; September 1st, Vermont; September 14th, Maine; October 13th, State elections in Ohio, Indiana, Iowa and Nebraska; October 14th, Georgia; October 22d, West Virginia; Nov. 2d, Louisiana; Nov. 3d, Illinois, Arkansas, Delaware, Florida, Alabama, Kansas, Maryland, Massachusetts, Michigan, Missouri, Nevada, New Jersey, New York, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Wisconsin, and again in Ohio if the new Constitution is ratified.

THE FASTEST TIME.—A telegram dated Buffalo, August 6th, says: The 2:20 race of yesterday was the fastest five-heat race on record, viz: 2:20, 2:19, 2:18, 2:19, 2:21. The last heat, by Red Cloud, is the fastest fifth heat on record. Red Cloud made the first quarter in the third heat in 32 seconds, which is the fastest time recorded for a trotting horse. Besides the stallion race on the second day, where Smugler made the fastest stallion time on record, 2:24, Goldsmith Maid's yesterday time of 2:15, once more makes the Buffalo track the fastest in the country. The average time of ten heats trotted yesterday was 2:20.

THE GREAT SCANDAL.—There has nothing come to hand as yet to satisfy the public mind that Beecher and Mrs. Tilton are innocent of the charges made against them, or that Tilton, who prefers the charges is one whit better off than they. So far as the present investigation is concerned, it cannot be conclusive, as the committee is supposed to be constituted of friends of the parties only. Let a Court of Law demand all the evidence and render an impartial decision according to the testimony of sworn witnesses, and then the truth will probably be arrived at, certainly not till then. It is a dirty job at best.

The "Patrid" Democracy.

This is the elegant term by which the Union and a few other equally disreputable papers in the country refer to the great national Democratic party. The "dead Democracy" has been sung so long by them that themselves have tired of the stale term, and hence the above choice designation is rung in for a change. The wish being father to the thought, the class of papers referred to has peeled forth these contradictions of fact without regard to truth, or rather in utter disregard of the truth, as is proven by the elections that have taken place during the present year, no less than eight States having been carried by this very party—taking their say no for it has for a long time to not had no existence. Not to mention previous elections, this default party has again carried Kentucky by an increased majority. On the 6th inst. it swept over Tennessee like a whirlwind electing local candidates in every county. The result was a revolution throughout and a sweeping victory everywhere. In North Carolina, also, the great departed has revolutionized the State, and Democratic gains are reported from every portion of that Radical ridden commonwealth. It has, notwithstanding the statement that it had no existence, elected seven of the eight Congressmen, a majority of twenty in the Legislature, and the majority on the popular vote is reported at some twenty thousand. Now if our extreme opponents are able to stiffen their shaking knees any by a constant reiteration of such falsehoods, we have no objection, except upon the general principle of hating falsehood. The Democratic party is the only party of correct principles in this country, as we believe, and those principles will live eternally. Passion and prejudice, together with such tremendous specially created aids as the negro vote, may tread them down for awhile, but it cannot be for long. Right and justice to every class of our citizens must and will finally prevail. Even the harpings of the Union and its falsifying allies cannot prevent it if they would. The late rumblings from the East and South are ominous, and may, we think, be taken as the forerunners of a terrible political storm—one that will sweep Radicalism with its allies the so-called Independents, into utter oblivion, at least as a national party. So we can afford to be generous to our political foes, and let them howl about the "dead" and "patrid" Democracy as much as they please. The Democratic star, thank Heaven, is again in the ascendant.

ORANGE.—From a copy of the *Weekly Tribune* published at Pendleton, Utah, we find the Beecher scandal is the absorbing topic, the editor concluding that "the Rev. Henry had his just deserts he would be pounded just at Sing Sing with Stokes and Boots Tread." The same paper makes the following splendid commercial exhibit: "It is estimated that Oregon will this year export one hundred thousand tons of wheat. If the price is good this will bring into the State over \$3,000,000. At 90 cents a bushel it would amount to that sum. There will be many other articles of export. The shipment of wool will be great and will yield a large sum of money. The salmon fisheries along the Columbia River will bring in probably \$1,200,000. There are thirteen of these salmon fishing and canning establishments, employing about 2,000 men."

THE GARDEN CITY TIMES.—This is a new daily evening paper published in San Jose, and comes out on the start larger than either of its contemporaries. It looks well and is ably conducted. We hope the enterprising publishers will be able to hold their grip and make the *Times* a paying, as it already is a creditable paper. Among its Santa Clara items, in the issue of August 10th we see a reference to Elda Cornell and Carriage, each of whom are well-known to many of our citizens, as follows: "The tent Elders drew large crowds on Sunday, preaching at 11 A.M., 2 P.M. and 8 P.M. They are earnest in their delivery and command good attention." Before leaving San Jose about twenty-five persons were converted.

DISMISSED.—Prof. Carr, of the Department of Agriculture in the State University, has been dismissed by the Board of Regents. A committee of three was appointed to report a suitable candidate for the position. So important an interest as agriculture must not be neglected.

WOULD SEEM TO BE.—When the leading Radical organ of the country is compelled to call upon Democrats to save the State from thieves, the days of the hybrid party would seem to be numbered. The New York *Times* gives a gloomy picture of the situation in South Carolina. Nearly twenty county officials are already indicted for fraud, corruption, perjury, malfeasance, defalcation or some similar offense; the *Times* recently said of the Radicals of South Carolina: "They now have evidence enough before them. Moses announces his intention of seeking the Governor's office again, as a vindication of his official career. He thus makes his own conduct and that of the thieves with whom he is associated the main issue in the fall election." It is quite well known that the Democrats have a chance to help put an end to the maraud. Let them turn to and do it. What more pitiful confession than this, asks the Cincinnati *Enquirer*, of the all-pervading corruption which has eaten up the Radical party, could be made? But the Democrats are about to "turn to and do it," not only in South Carolina but throughout the Union.

WHEAT SHIPMENTS.—The shipments of wheat from this point for the past week aggregate eleven hundred and fifty tons—850 tons by Messrs. Thomas & Hunt and 500 tons by the Grangers.

The Democrats of Sacramento—Local Option—Separate Schools.

The Democratic County Central Committee met in Sacramento on Thursday evening, Wm. Shattuck, Chairman; W. B. C. Brown, Secretary pro tem. The following platform was unanimously adopted:

DECLARATION OF PRINCIPLES.
We, the Democratic County Central Committee, speaking for the Democracy of Sacramento county, declare: First—That we are in favor of reducing the expenses of our county government to the lowest possible limit, and to that end we present as our candidates for Supervisor in the First and Second Districts men who come up to the Jeffersonian standard of capacity and honesty.

Second—We are in favor of that system of laws which will compel all corporations, whether railroad or other, and all banking houses and money lenders to pay their fair share of taxes, and bear with the citizens generally their just share of the burdens of government.

Third—That while we believe in temperance in the fullest significance of the term, and are in favor of teaching our people its beauties and its virtues, we are unalterably opposed to any law prohibiting the sale of wine, or other social habits; regarding all sumptuary or prohibitory liquor laws as destructive of the individual liberty pertaining to the citizen in a republic.

Fourth—That while we are in favor of providing good schools for all the children in our land at the public expense, we demand that the law of this State providing for separate schools for white and colored children shall be strictly enforced.

To all of the foregoing propositions our candidates stand pledged before the people.

WRITES HIMSELF DOWN "AN ASS."
That the fallacious nonsense of the *Mail* has long since proved its editor to be just what yesterday's issue of that paper, in so many words, confesses him to be, is often heard expressed in this county. But that the supreme vanity of that individual should lead him to write himself down "an ass," is rather surprising. Should we be charged with misrepresenting, we copy the confession voluntarily made from his own paper, simply remarking that it has the merit of truth about it, at least, and that it was doubtless prompted by the idea that "confession is good," etc.

"After investigating the matter thoroughly, and getting a fair expression of public opinion, we are led to believe that our criticism of the performance of the Coleman Sisters was unjust and altogether wrong. Whether it was that they did not perform, or that they were not as good as we represented them to be, we cannot say; but it is very certain that their entertainment was most acceptable as generally satisfactory to the people, as any that has ever visited Woodland. What streak of fancy could have visited us on that occasion that we should be so ungenerous to the performers, and that we should be so ungenerous to the people, we have concluded to retract and consider our remarks on that occasion the criticism of an ass."

STEPHEN A. DOUGLAS' ESTATE.
The great suit long pending between the heirs of Stephen A. Douglas and the executor of his estate was decided in Chicago, July 27, by Judge Williams in favor of the heirs. This decision gives the heirs Robert and Stephen A. about a quarter of a million dollars. It was made under the following circumstances: When Mr. Douglas died, he left Dr. P. Rhodes, of Cleveland, as his executor. His property, mostly real estate in South Chicago, being offered for sale, Rhodes agreed with one Debbins that if the latter bought in all the property he would take one-third of his hands. This was done, and the speculators made an immense sum from their investments. The suit was brought to recover on the ground that an executor cannot be interested directly or indirectly in the purchase of property at his own sale, and the Judge so decided. But one half of the value of the property was decreed to the children. The other part would have gone to the widow, but she was barred, having allowed too long a time to elapse before ascertaining her right.

A Lesson.
"We cannot always be giving;
The woman has come again;
She has brought with her
Of hunger, cold, or pain;
She wearies with petitions;
Her Johnny is out of a place,
Her children are sick with hunger,
And she looks like a slave."
Grand Philip sat lazily reading;
The crimson light shone
From a shade that was ruby tinted,
He read of the woman's story,
Thought that he did not notice,
But suddenly, sweet and low,
He said with the voice of a seamer,
"Don't let the woman go."

And then, with his smile so royal,
So sweet with pity and pain,
He called her to his study,
Out of the needless rain,
He laid down his pen and gave her
The best chair in the place;
And I saw quick tears brighten
Her haggard and listless face.
And then, in tones like music,
He sounded her frozen heart,
Till the thrill of a tender question
Sundered its ice apart.
And then, and so, and so,
He came thick as the rain;
And he told such a pitiful story
Till my own heart throbbed with pain.
"You see," said Philip, softly,
She is greater than we are;
She has struggled and conquered where we,
Love,
Would maybe sink down and die;
She has fought in the dark, with demons,
And Satan has tried to stir her
Even of her own heart.
"Love, let me be your tender;
The lowliest soul may be
A temple of priceless treasures,
That only a God could see;
The woman left our study
With the face of an angel;
And she is my noblest pattern
Who came as a beggar that night."

VEGETABLE
SICILIAN
HAIR
RENEWER
This standard article is compounded with
the greatest care.
Its effects are as wonderful and satisfactory
as ever.
It restores gray or faded hair to its youthful
color.
It removes all eruptions, itching and dandruff,
and the scalp by its use becomes white
and healthy.
By its tonic properties it restores the capillary
circulation to the normal vigor, preventing
baldness, and making the hair grow thick and
strong.
As a dressing, nothing has been found so
effective or desirable.
Dr. A. A. Hesse, State Assessor of Massachusetts,
says of it: "I consider it the best preparation
for the hair I have ever used."
